

## Vasileios Triantafyllidis, Agriculturist BSc, MSc, PhD

Date of Birth: 31/03/1974

Place of Birth: Agrinio, Greece

### **Education:**

2001-2006 Department of Environmental and Natural Resources Management University of Ioannina (Greece).

Ph.D. in Plant Soil and Environment. PhD Thesis title: «The soil behavior of modern pesticides in tobacco and maize cultivation and the effect on the flora».

1997-1998 Institut National Polytechnique de Lorraine, France

MSc. (DEA) in Agricultural Sciences. MSc Thesis title: «Use of porous cup to monitor pesticides in soil water at the experimental station of Kerlavic».

1997-1998 École Nationale Supérieure d'Agronomie et des Industries Alimentaires (ENSAIA), France. Graduated studies in Soil and Environment.

1992-1996 Department of Crop Production, Technological Educational Institute of Epirus. BSc. in Crop production.

### **Work/**

### **Experience**

May 2021–today Assistant Professor, Department of Business Administration of Food and Agricultural Enterprises, University of Patras. Knowledge Area: Pollution and management of soil and water resources in cropland & the impact on native flora.

Sep. 2006–2016 Visiting lecturer. Department of Business Administration of Agricultural and Food Products, University of Patras.

Sep. 2003-2011 Visiting lecturer. Faculty of Agricultural Technology, Technological Educational Institute of Messolongi.

December 2016–2021 Laboratory-Teaching Staff. Department of Business Administration of Food and Agricultural Enterprises, University of Patras.

December 2001-2016 Agriculturist, Technological Institute of Epirus, 2005-2007 posting in Department of Business Administration of Agricultural and Food Products, University of Ioannina-Patras. From 2008-2016, transfer to the Technological Institute of Messolongi.

Sep. 2003-Sep. 2008 Scientific and laboratory assistant of the Postgraduate Study Programme (PSP) leading to a master's degree in "Quality Agricultural Product Certification", University of Ioannina.

Sep.1999-Sep.2004 Scientific and laboratory assistant in Department of Business Administration of Food and Agricultural Enterprises, University of Ioannina.

Sep.1999- Jun.2003 Scientific & Laboratory assistant in Faculty of Agricultural Technology, Technological Educational Institute of Epirus.

## **Teaching/**

## **Experience**

### **I. Teaching at undergraduate level:**

2006-today: Department of Business Administration of Food and Agricultural Enterprises, University of Ioannina, the following courses:

- ✓ Environmental management
- ✓ Precision Agriculture
- ✓ Agriculture pharmacology
- ✓ Fertilizers and plant production
- ✓ General and Specific Agriculture
- ✓ Damage Estimation of Plant and Animal Production
- ✓ Sustainable agriculture
- ✓ Biological Agriculture and Stock Farming
- ✓ Plant Morphology and Physiology
- ✓ Introduction to Ecology and Environmental Protection.

2003-2011: Faculty of Agricultural Technology, Technological Educational Institute of Messolongi, the following courses:

- ✓ Agriculture pharmacology
- ✓ Nutrient Management
- ✓ Land Management

1999-2003: Faculty of Agricultural Technology, Technological Educational Institute of Epirus, the following courses:

- ✓ Agriculture pharmacology
- ✓ Agro chemistry
- ✓ Soil analysis

### **II. Teaching at Postgraduate level:**

2009-2013 Invited Lecturer. I give a lecture titled "Sustainable management of soil systems" to the students of the within the course Postgraduate Study Programme (PSP) in "Agro chemistry and Organic Farming» Department of Chemistry, University of Ioannina.

2003-2008 Teaching laboratory exercises to the students of the Postgraduate Programme (PSP) leading to a master's degree in "Quality Agricultural Product Certification", University of Ioannina.

**Research/  
Experience**

Research in Pesticide Science and Weed flora, particularly in areas such as: cropping systems and pesticides, phytotoxicity, weeds and cultivated fields. Processes of dispersion and distribution of pesticides in different parts of the biotic and abiotic environment. Identification and quantification of pesticides. Specialised research experience gained in the following activities:

Postgraduate studies (DEA) in France, a research project to study herbicide (a.i. atrazine, isoproturon clopyralid & trifluralin) in the agro ecosystem. Porous cup was studied using radioisotopes, to certify them as samplers of plant protection products in soil water. Then they were placed and used in the experimental station of Kerlavic. The research took place at Ecole Nationale Supérieure d 'Agronomie et des Industries Alimentaires, fellowship after consulting the Scientific Council of INPL.

PhD thesis at the University of Ioannina. The behavior of pesticides in agro-ecosystem, the weeds on crops, the impact of herbicides on weeds and the phytotoxicity on cultivated plants, as well as the processes of dispersion and distribution of plant protection products in different parts of the biotic and abiotic environment were studied.

Postdoctoral Research in the laboratory of Crop production at the Department of Business Administration of Agricultural and Food Products (University of Ioannina) on: the behavior of pesticides in agro-ecosystem and weed flora, systems of organic and conventional farming, management of irrigation water and fertilization, cultivation of energy plants.

**Participation in the research projects:** 2021-2023 Pesticides in Europe During the Twenty-first Century: a Comparative Assessment Using Agri-environmental Indices of EU<sub>27</sub> MEDICUS of the University of Patras “ΜΟΔΥ ΕΛΑΚΕ”, research.upatras.gr; under Grant Agreement No 81667, Scientific Director: Associate Professor Triantafyllidis Vasilis, Department of Business Administration of Agricultural and Food Products, University of Patras.

2019-2021 SmartOliveGrove, smart farming services for improved olive production in Western Greece. The project is carried out within the framework of the “Aiding Enterprises for research projects” Action and is co-funded by the European Union and national resources through the “WESTERN GREECE 2014-2020 Operational Programme (Ε.Π. ΔΥΤΙΚΗ ΕΛΛΑΔΑ 2014-2020, project code: ΔΕΡ6-0021056)”. Project Manager: Professor Patakas Angelos, Department of Business Administration of Agricultural and Food Products, University of Patras.

2018-2021 Precision farming methodology for optimizing Asparagus cultivation Management Efficiency Project Manager: Professor Patakas Angelos, Department of Business Administration of Agricultural and Food Products, University of Patras.

2011-2013 Dissipation, transport of selected pesticides in soil-water systems and the impact on soil microorganisms and self-sown flora in experimental field cultivations of energy crops (PEST-SOW-E-CROP), Archimedes Project. Project Manager: Manos Georgios TEI EPIRUS.

2005 -2008 PENED: Research Fellow, Project Title: A new technical approach for optimizing irrigation production system. Project Manager: Associate Professor Patakas Angelos, Department of Business Administration of Agricultural and Food Products, University of Ioannina

2005-2008 PENED: Research Fellow, Project title: Development of methodology for controlling and minimizing the residual nitrates and heavy metals in leafy vegetables. Project Manager: Professor Salahas George, Technological Institute of Messolongi.

2005-2007 Archimedes II: Research Fellow, Project Title: Control of nitrate levels in water and leafy vegetables in Aitolokarnania region, Greece. Project Manager: Professor Salahas George, Technological Institute of Messolongi.

2000-2001 INTEREC II: Research Fellow, Project Title: Training in agricultural issues with multimedia and the Internet. Scientific Director: Professor Dimitrios Savvas Agricultural University of Athens.

1998-2000 TAB-RES-INFO 96/T/35: Research Fellow Program TAB-RES-INFO 96/T/35 «Monitoring and minimizing heavy metal contents in tobacco». Scientific Director: Professor Nicholas Malisiovas Technological Institute of Epirus.

1995 GISIPA, BOLONIA, participation in a research program on: production of certified seed potatoes, viral diseases, and cultivation techniques. Supervisor of my dissertation at undergraduate level: Professor George Manos GISIPA, BOLONIA, Italy.

## **Conferences**

2016 November. Holistic approach to increasing the competitiveness of olive cultivation, Dr. Vassilios Triantafyllidis, Elea, Agrinio.

2014 November. Prospects for the cultivation of Aromatic plants in the Prefecture of Aitoloakarnania, Dr. Vassilios Triantafyllidis, Agrinio.

2013 March. Developments and prospects of the Agricultural Economy of the Prefecture of Aitoloakarnania, Dr. Vassilios Triantafyllidis, ETAGRO.

2011 May. Experimental cultivation of energy plants in Western Greece, Dr. Vassilios Triantafyllidis, Green Aim.

2010 December. Prospects for the cultivation of energy plants in the case of oilseed rape, Dr. Vassilios Triantafyllidis, INAEP

December 2009 entitled "Experiences in the cultivation of energy crops" Dr. Vasileios Triantafyllidis, 2nd Business Show Aitoloakarnania, Institute for Development & Entrepreneurship (INAEP) Agrinio.

2009 April Results of the Technological Educational Institute of Messolongi, project EPEAK - Design new programming period, Dr. Vasileios Triantafyllidis, Messolonghi.

2009 January. Member of the Scientific Committee on "Prospects for crop production Stevia & aromatic plants in the region of Aitoloakarnania" Dr. Vasileios Triantafyllidis, Agrinio.

2007 December. Control of residual nitrate in leafy vegetables and waters in region of Aitoloakarnania Dr. Vasileios Triantafyllidis, Messolonghi.

2001 October Training in agricultural issues with multimedia and the Internet. Savvas D., Triantafyllidis V., Agrinio.

## **Scholarships:**

1997 - 1998 Fellow of the National Polytechnic Institute of Lorraine, France (INPL) during post graduate studies in Agricultural Sciences.

## **Seminars**

2003 An introductory training. National Center for Public Administration, Athens.

2001 Training and use of atomic absorption (ICP-OES), Athens.
